PROFESSIONAL EXPERIENCE

Digital Marketing Tool
MART-REACH — September/2020 till date

I am one of the five member team involved in the creation of a digital marketing tool known as "mart-reach". On the project I worked on various UI's using HTML CSS and JavaScript. I built the Pricing page, FAQ page, Suggestion and post Email page on user Dashboard. I also worked on the Admin Feedback page and Admin-User interaction functionality This can be seen in https://team2-digital-marketing-tool.netlify.app/index.html

Portfolio Website
. — September/2020

I created an elegant portfolio website for myself using HTML CSS and Javascript with no involvement of Bootstrap of any kind even though I am proficient in with bootstrap. This can be seen in https://team2-digital-marketing-tool.netlify.app/index.html

Medtunity
MEDTUNITY — April/2020

Using WordPress theme editor I designed the platform "medtunity" which is a website for medical opportunities and was able to create compelling user interface which has lead to an increase in positive reviews from users. This can be seen in http://medtunity.com/

Medtcareer
MEDTUNITY — October/2020

Using WordPress theme editors I have been able to design the platform "medtcarrer". Which is a platform for medical job opening this can be seen in https://medtcareer.com

Medximus
. — October/2020 till November/2020

Using WordPress theme editor I have been able to design an e-commerce store for purchase of medical disposable products and customer has shown maximum satisfaction with the user experience this can be seen in https://medximus.com/

Jet-Club President
FGC-KWALI — 2014-2015

I created a seamless ecosystem for exhibition of various science project which resulted in winning the annual science government exhibition.
